Solberg Airport ~ Whitehouse
Station, NJ - 6:00 am and 6:00
pm Balloon lift offs.

99's Angela Leedy of Pittstown, N.J.

It is with sadness and Condolences that we talk about the sudden passing of Dennis Leedy in February 2018.

In January, Dennis had a stroke, was expected to make a full recovery, then suddenly passed away. Described by his daughter as the man that came "charging into my life head first, filling an empty void, by making a beautiful home." "Dennis was one of the last true gentlemen." Always supportive, encouraging Angelas' endeavors..

*He was an Army Ranger in the military, and received a *Purple Heart*, and a Bronze Medal (forth highest medal in the Military). As a Paratrooper in Vietnam Dennis received an Army Commendation Medal for meritorious service. Dennis is "Forever Loved ~ Forever Missed".*

Angela in her bright beautiful yellow *Top Cub* airplane, is an amazing, adventurous flying spirit that Dennis was always proud to support. Angela set high goals for herself and with unbridled enthusiasm and style, her Aviation web site "The HIVE"... made her the "Queen Bee" and exemplified her lifestyle.

Angela had been flying continually for the last couple of years, flying to every state in the continental U.S.A..... this year was to culminate in a cross-country flight, the trip of a lifetime to Alaska.

As Dennis has flown off to high horizons, so to will Angela keep "flying", and one day complete the Alaska trip, as Dennis would want her to.

Angela wants to say "Thank You" to her "Sisters in Spirit" the * NINETY NINES * ~ Keystone Chapter 99's ~ for the beautiful flowers and Condolence Cards.

Thank You to the many, many friends and family for their well wishes and offers of help.

Sun N' Fun

Lakeland, Florida ~ April 7 - 15th 2018 ~ **Florida Aviation Broadcasting** will again, **2018**, be interviewing 99s Angela Leedy.

Encouraged by the many aviation friends that she has, Angela will be flying her big yellow *Bee* Top Cub Airplane down to Florida for *Sun N' Fun* and displaying her plane at JB Aircraft Engine.

As she did last year, Florida Aviation Broadcasting will be Interviewing Angela about "Women and Aviation", "Women and Fear of Flying", "How Flying Empowers Women Like Nothing Else Can", and "Coming Back from Debilitating Challenges". Friday morning Interview. at Sun N' Fun..... watch for it on Friday- April 13th on Florida Aviation channel and UTube.

MICROSOFT and NINETY NINES

Microsoft *DIGIGIRLZ* AVIATION DAY Nationwide Microsoft Technology Program for girls, combining Computer Technology and Aviation..... Bridgewater, N.J. store.

Angela was asked to do a presentation at Microsoft Stores Technology workshops, given across the Nation. Titled ~ *DigiGirlz* ~

A partnership between the 99's and Microsoft, a free workshop about computer science and aviation for young girls. Learning how to combine an interest in Aviation into a successful career in technology. Angela is always promoting the 99's and the often unrecognized support that the 99's give to so many women.
